

BROOKE JANKOWSKY

BELONG.BEYOND.BELIEVE.

**DIVISION III INTERNATIONAL VICE PRESIDENT
CANDIDATE**

Hi friends! Let me tell you a bit about myself. I am an officer for the Beta Lambda Kappa chapter at Macomb Community College, located in Clinton Township, Michigan. I am Michigan born and raised. My two younger sisters, Megan and Eva Rose, are my best friends. I also have a golden retriever puppy named Cora. I am running for Division III International Vice President. I want to bring my experiences to help create a positive, inclusive atmosphere that welcomes differences as things that should be celebrated. I truly believe that everyone brings something special to the table. My candidacy will be a way to connect with as many people as possible and hear their stories. I want to inspire others to be themselves by showing everyone my true self every day. So, I welcome you to join me on my journey to belong, beyond, and believe.

WHY AM I RUNNING?

BELONG

I want to make PTK an even more welcoming place for people from all walks of life. Being excluded and feeling like I didn't belong anywhere has taught me to always build others up and to be kind. Everyone deserves to feel comfortable being themselves, no matter who that might be. I want to get involved in fostering new connections for others and myself so everyone knows they belong!

BELIEVE

I truly believe I can be an incredible ambassador for PTK. I aspire to inspire people with my passion, integrity, work ethic, drive, and determination. I believe that as Division III's VP that I will be able to share my passions with others and have them tell me theirs. I want to see what motivates people and makes them believe. I believe in things like plus-size representation and fighting the community college stigma. What do you believe in?

BEYOND

I want to personally challenge myself to go beyond my comfort zone and be my authentic self each and every day. I am wonderfully weird and that is great! I tried to put up a front so people would like me and I could fit in. Now, I'm learning that in order to grow beyond who I was yesterday, I have to do things that make me happy. I want to inspire all of you to go beyond by challenging myself to do the same.
