

SEONG KIM

For International Vice President Division I

Having immigrated to America and moving across states like Illinois, Texas, and Pennsylvania, spending the majority of my life interacting and immersing myself in diverse cultures and ethnic communities helped my understanding of the importance of diversity in an ever-changing climate here in America.

As a child of a North Korean father who escaped to provide me, my Japanese mother, and my brother a better future, I know better than anyone the adversity and sacrifice my father went through. Growing up facing my own unique set of challenges, overcoming these obstacles and the traits my parents instilled in me has made me who I am today. Learning from my experiences, I made it my mission in aiding others to succeed and will continue doing so, advocating for open educational resources, access to opportunities, and inspiring many along the way.

"We are what we repeatedly do.
Excellence, then, is not an act, but a habit."

-Aristotle

The photo below took place during Catalyst 2022.

It's one of those special moments I will truly never forget being a part of a community that shares the same ambition, values, and goals like myself.

Meeting people across the nation - and the world - gathering in one place, holds a special place in my heart.
